Case Closure

Medical Legal number 02-2230

## Narrative

Case Closure

Medical Legal number 02-2230

On January 28, 2019, I, D.S. Wilker, [REDACTED], Administrative Associate, assigned to the Homicide Division, Open Records Unit, received an Open Records Request, 19-000860, requesting a copy of the case file associated with Incident number 0929583-02.

I researched the incident number and discovered the investigated chronicled the discovery of a body in the bayou on July 2, 2002. Responding patrol officers conducted the initial investigation. Homicide Investigators did not make the scene. When the complainant's body was recovered from the bayou there was no sign of obvious foul play and the complainant was assigned the medical legal number of 20-2230. There was no identification on the complainant and the complainant was initially listed as Unknown Dead Man. The unknown complainant was listed in the Texas Department of Public Safety Unidentified Persons database under the NIC # of U200006247.

On September 7, 2005, The Harris County Medical Examiner contacted the Homicide Division to advise a concerted effort was being put forth in an attempt to identify the complainant. The Harris County Medical Examiner stated a sample of the victim's tissue for DNA analysis was being sent to Texas Health Science Center at Fort Worth and the Texas Department of Public Safety Unidentified Persons, (DPS). Over the subsequent years the NIC # was checked to see if the status of the victim had changed, it had not.

The status of the Unknown Dead Man did not change until, September 16, 2014 when a compatible DNA was found to be a familial match to the deceased victim. The matched DNA belong to the victim's daughter. With this information, the Harris County Medical Examiner's Office closed out their unidentified file on the victim. Reviewing the Houston Police Department, {HPD}, incident report, it appears the information was not transferred to HPD.

## HOUSTON POLICE DEPARTMENT

### Narrative

Based on this information, I contacted DPS Unidentified Persons and confirmed they were aware of the DNA match and closed their file on the victim. I was informed they had closed their file.

This supplement will close the HPD report concerning this investigation. The victim has been identified and the family notified. I contacted the Harris County Medical Examiner's Office and learned the cause of death was due to drowning and the manner of death was ruled accidental. Since there appeared to be no foul play involved in the death of the victim, this case will be cleared by investigation.

## Narrative

Case Closure  
Medical Legal number 02-2230

On January 28, 2019, I, D.S. Wilker, Administrative Associate, assigned to the Homicide Division, Open Records Unit, received an Open Records Request, 19-000860, requesting a copy of the case file associated with Incident number 0929583-02.

I researched the incident number and discovered the investigated chronicled the discovery of a body in the bayou on July 2, 2002. Responding patrol officers conducted the initial investigation, Homicide Investigators did not make the scene. When the complainant's body was recovered from the bayou there was no sign of obvious foul play and the complainant was assigned the medical legal number of 20-2230. There was no identification on the complainant and the complainant was initially listed as Unknown Dead Man. The unknown complainant was listed in the Texas Department of Public Safety Unidentified Persons database under the NIC # of U200006247.

On September 7, 2005, The Harris County Medical Examiner contacted the Homicide Division to advise a concerted effort was being put forth in an attempt to identify the complainant. The Harris County Medical Examiner stated a sample of the victim's tissue for DNA analysis was being sent to Texas Health Science Center at Fort Worth and the Texas Department of Public Safety Unidentified Persons, (DPS). Over the subsequent years the NIC # was checked to see if the status of the victim had changed, it had not.

The status of the Unknown Dead Man did not change until, September 16, 2014 when a compatible DNA was found to be a familial match to the deceased victim. The matched DNA belong to the victim's daughter. With this information, the Harris County Medical Examiner's Office closed out their unidentified file on the victim. Reviewing the Houston Police Department, (HPD), incident report, it appears the information was not transferred to HPD.

## HOUSTON POLICE DEPARTMENT

### Narrative

Based on this information, I contacted DPS Unidentified Persons and confirmed they were aware of the DNA match and closed their file on the victim. I was informed they had closed their file.

This supplement will close the HPD report concerning this investigation. The victim has been identified and the family notified. I contacted the Harris County Medical Examiner's Office and learned the cause of death was due to drowning and the manner of death was ruled accidental. Since there appeared to be no foul play involved in the death of the victim, this case will be cleared by investigation.
